SHADY GAMBLING DENS ARE POPPING UP EVERYWHERE.

IT HAS TO STOP. NOW!

THIS OUTRAGE MUST STOP. Convenience stores, pizza parlors, almost anywhere people congregate, shady gambling dens are luring gamblers — **OF ALL AGES** — including kids. State law says that slot machines are allowed only in licensed, regulated, and supervised casinos — not where kids buy candy bars or grab a slice on their way home from school. We can't let convenience stores and sandwich shops turn into illegal slot machine joints.
