🌍

Global Reach

Potential for international expansion

International Expansion

FeelPoker is ready for international expansion, which will allow it to attract new users and generate exponential revenue without the need for large additional investments, thanks to its already established infrastructure.

Satisfactory Validation

Platform validated during its launch by several clubs operating and even preferring to use our service over that of the best-known competitor.

Unique opportunity to acquire such a developed application to exploit and commercialize in the International Market by a Gaming Operator and integrate it into Online Gaming Platforms.

Towards Real Money and a Global Market

License Acquisition

Application for gaming licenses, complying with technical and financial requirements to operate.

International Expansion

Agreements with Casinos and Betting Houses, presence in the iGaming Sector like Lisbon and Cancun.

New Games

The developed technology allows adding other casino games and poker variants without redoing the architecture.

Monthly Revenue

With 20 active clients and in a growth phase

Dynamic Valuation Scenario and Strategic Sale

FeelPoker starts with a **current valuation of 2 million euros (2025)**, with active users, operational clubs, and a technically robust product. The thesis for the investor is clear: the valuation **progressively evolves** as key implementations are completed, reducing technical-regulatory risk.

In the target state (final product without geographical or payment restrictions), the **estimated valuation** approaches **5 million euros**.

Roadmap and Key Milestones

Tournaments and New Features

AI and Virtual Bots

Real Money Payment Gateways and Methods

Each milestone reduces uncertainty and adds monetization and scalability, transforming FeelPoker into a platform ready for regulation and direct monetization that allows the exploitation of the global online poker market.

Estimated Valuation Evolution

Product with active users, functioning clubs, and solid technical base

€2.5-4M

Intermediate Phases

Valuations according to the actual degree of progress in achieved partial milestones

€5M

Final Valuation

Complete product without restrictions, ready for rebranding and immediate deployment

Direct Comparison with Competitors

FeelPoker (AI + Regulated Model)

- Legality: In process under Spanish/EU legislation
- AI: Bots + interactive guides + analysis
- Real Money: Regulated and projected model
- Crypto: Plan under MiCA and CNMV regulations
- Patented Games: Patented Hold'em Mode
- Global operation as international online poker operators

PPPoker / PokerBros

- Legality: Operate without specific license
- AI: Not available
- Real Money: Indirect unregulated use
- Crypto: Not applicable
- Clubs: Limited
- Scalability: Legal risks

PPPoker

Disadvantages:

- Basic gameplay compared to FeelPoker
- Less interactive user experience
- More complex fee structure

PokerBros

Disadvantages:

- Lack of advanced customization
- Less appealing visual structure
- Less innovation in gameplay

FeelPoker's Competitive Advantages

Advanced Gameplay

Dynamic with interactive avatars and mini-games

Club System

Fully customizable with advanced options

Perfect Rating

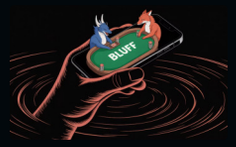

5 stars in app stores

Modern Interface

Fluid and attractive design for users

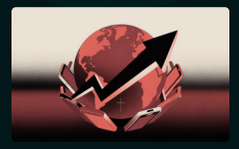

The only current disadvantage is brand recognition still under development, but with great expansion potential thanks to planned marketing strategies and a strong operator or strategic partner in the sector, the potential is infinite, as the product and software are ideal.

SWOT Analysis

Strengths

Advanced Gameplay with dynamic Avatars and a customizable Club system, offering a unique and engaging user experience.

Opportunities

Global Market Growth and the private clubs niche present a great opportunity for international scalability.

Weaknesses

The brand requires marketing resources to increase its recognition and reach, enabling it to position itself within the sector.

Threats

The sector faces aggressive competition and changes in gaming regulations, requiring constant adaptation to legislation.

Investment Opportunity

Strategic Investment

Capital to scale, expand user base, and implement new technologies

Potential Return

Estimated 3x or 4x return in two years, with high profitability

Diversification

Growing sector with multiple monetization avenues

Why FeelPoker?

Product Ready

Software fully developed and ready to add new implementations and operate with real money in the short term.

Market Growing

Positioning in a sector that reached US$5.3B in 2024 and continues to expand.

Solid Metrics

Projected increases in ARPU (from €25 to €150) and LTV (from €200 to €500) demonstrate profitability potential.

Estimated Impact

Strategic Growth Timeline

1 — **Q3 2025**
Private investment round / presentation to ENISA

2 — **Q4 2025**
AI / guides / bots / algorithms development

3 — **Q1 2026**
Legal integration of real money payments + cryptocurrency testing

4 — **Q2 2026**
Expansion to EU + Latam countries

5 — **Q3-Q4 2026**
Financial break-even point + potential strategic alliances

Investor's Conclusion

FeelPoker is at a unique moment for exponential expansion.

Functional Product
Excellent user feedback and rating

Real Community
Constantly growing user base

Expandable Model
With AI, real money payments, and cryptocurrencies

Clear Legal Framework
Defined path for regulated expansion

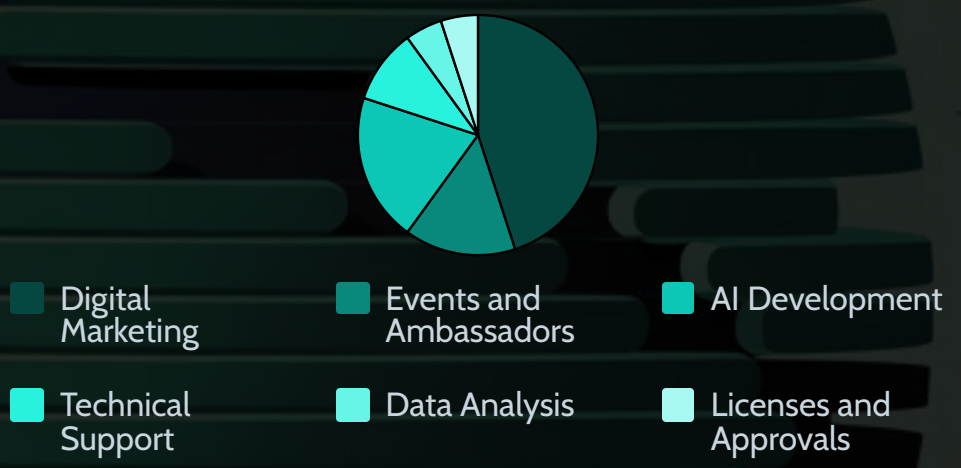

The estimated return on investment is exponential, with a potential of x3 or x4 in two years. This is a very attractive investment for investors seeking diversification and high short-term profitability potential.

Global Expansion

The objective is to expand the application to International Markets, starting with Europe, Latin America and the United States, later and Asia.

Capital Allocation 200 K

- Digital Marketing: 45% (€90,000)
- Events and Ambassadors: 15% (€30,000)
- AI Development: 20% (€40,000)
- Technical Support: 10% (€20,000)
- Data Analysis: 5% (€10,000)
